- (ii) provide social supports within their community or communities; or
- (iii) build capacity through education, training and skill development;

and, take priority over applications from NGOs who deliver less critical services such as cultural or recreational programs.

- c) Collaborative projects or projects that benefit more than one NGO take priority over projects that benefit only the applicant NGO.
- d) Management, governance and organizational development costs generally take priority over extraordinary operations costs.
- e) Projects that have not received support (new projects) take priority over projects that are the same or similar as those supported in previous years for the same NGO.

### **Grant Decisions**

The annual budget for the NGO Stabilization Fund is \$700,000. Grant decisions are made and communicated in writing to applicants within two months of the application deadline.

The maximum an NGO can receive is \$50,000 per year. Partial amounts of requested funding may be provided.
