

CARBON MONOXIDE KILLS...

ARE YOU AND YOUR FAMILY SAFE?

Purchasing and installing a combination carbon monoxide/smoke detector is a simple and effective way to protect your household.

To learn about carbon monoxide and the dangers it presents, visit
www.maca.gov.nt.ca.

THIS DOOR KNOCKER WAS DELIVERED BECAUSE

There is a noticeable build-up of ice on your chimney, which is a carbon monoxide hazard.

Just a friendly reminder to install a detector, service your heating devices, and test your detector if you already have one installed.
